1.2 Charge Description

Landing/Take off

Landing/Take-Off charge is due for each landing operation.

Landing/Take-Off charge is levied on the basis of the maximum take-off weight (MTOW) as stated in the Certificate of Airworthiness or in any other document that may be considered appropriate for this purpose and is due for each aircraft landing.

Amounts charged in each category are cumulative, i.e., aircraft with a MTOW over 25 tonnes will be charged accordingly with the amounts established for each intermediate category where they may fall into.

Minimum charge per landing – Each landing/take-off operation on Lisbon, Porto or Faro airports will support a minimum value for landing.

Exemptions:

- Operations exclusively made for the official transportation of State or Government heads and ministers and operations under reciprocity agreements, confirmed by the Ministry of Foreign Affairs.
- Operations by military aircraft or others, performing official military missions, non-remunerated or under special agreements binding the Portuguese State, as confirmed by the competent entities.
- Operations for search and rescue, medical emergencies, internal security, civil protection and humanitarian missions, as demonstrated by documents.
- Aircraft returning back to the airport due to technical breakdown, weather conditions or other cases of force majeure, duly demonstrated.

Aircraft used for local flights of test, instruction and training flights may benefit from a reduction of at least 50%.

According to the protocol signed between the FAP (Portuguese Air Force) and ANA, the landing charge at Beja airport, is applied by FAP¹ and is the same as Faro airport.

Aircraft Parking

Parking charges are due for each parked aircraft, and are variable according to the parking areas (traffic areas, maintenance areas or other).

Parking charges are not due for the first 90 minutes after landing and 90 minutes before take-off.

In Lisbon airport, for aircrafts up or equal to 100 ton, parking charges are not due, for the first 30 minutes after landing and 30 minutes before take-off.

¹ For more information contact FAP (See chapter "Contacts – Official Entities")

Parking charges are due for certain periods of time and are based on the tonnage metrical unit of the aircraft maximum take-off weight.

The defined categories are cumulative.

The following operations are exempt of parking charges in the first 48 hours after landing, provided that the airport is not used as their home base:

- Operations exclusively made for the official transportation of State or Government heads and ministers and operations under reciprocity agreements, confirmed by the Ministry of Foreign Affairs;
- Operations by military aircraft or others, performing official military missions, non-remunerated or under special agreements binding the Portuguese State, as confirmed by the competent entities;
- Operations for search and rescue, medical emergencies, internal security, civil protection and humanitarian missions, as demonstrated by documents.

This charge shall be increased by a surcharge for every 15 minutes or part thereof. This count begins ten minutes after the scheduled time for the removal of the aircraft and the removal order is given with no less than twenty minutes of advanced notice.

Air Bridges and GPS

These charges are due for the provision of air bridges and also for the use of supplying electrical energy transformed to 400hz provided through GPS.

In Lisbon and Faro Airports, this charge includes the use of GPS equipment.

The following operations are exempt of air bridge and GPS charges, provided that the use of such equipment is essential for the operation, as acknowledged by the airport managing body.

- Operations exclusively made for the official transportation of State or Government heads and ministers and operations under reciprocity agreements, confirmed by the Ministry of Foreign Affairs.
- Operations by military aircraft or others, performing official military missions, non-remunerated or under special agreements binding the Portuguese State, as confirmed by the competent entities.
- Operations for search and rescue, medical emergencies, internal security, civil protection and humanitarian missions, as demonstrated by documents.

Passenger Service

Passenger Service charge is levied on each departing passenger and billed directly to the operators, according to their destination.

Exemptions:

- Children under 2 years old;

- Passengers in direct transit through the airport;
- Transfer passengers at Santa Maria, Ponta Delgada, Horta and Flores airports who have as their final destination the other islands of the Azores Archipelago;
- Passengers from any aircraft returning to the airport for technical, meteorological or similar reasons;
- Passengers departing on aircraft exclusively used for the transportation of State or Government heads and ministers and operations under reciprocity agreements, confirmed by the Ministry of Foreign Affairs;
- Passengers departing on military aircraft or others, performing official military missions, non-remunerated or under special agreements binding the Portuguese State, as confirmed by the competent entities;
- Passengers departing in aircraft used for search and rescue, medical emergencies, internal security, civil protection and humanitarian missions, as demonstrated by documents;
- Passengers departing in aircraft used for local flights of test, instruction and training flights.

Airport Opening Time

This charge is due whenever the airport opens off-schedule, under exceptional circumstances. The request for such opening must be presented at least 3 hours prior notice.

The values of this charge vary according to the nature of the operation, the schedule of the operation and the type of aircraft. The charge is levied every two-hour period or fraction.

All operations of search and rescue as well as urgent humanitarian missions, urgent internal security missions or urgent civil protection missions, duly demonstrated, are exempt.

According to the protocol signed between the FAP² (Portuguese Air Force) and ANA, the airport opening charge at Beja airport, is applied by FAP and is the same as Faro airport.

PRM Charge (Passenger Reduced Mobility)

Airlines operating in ANA Network airports shall pay this charge, per embarked passenger, due to the service of passengers with reduced mobility.

The invoice of this charge will follow the invoicing rules, including exemptions, applicable to passenger service charge. This charge is not applied to General Aviation.

² For more information contact FAP (See chapter "Contacts – Official Entities")

Security Charge

Security charge is due for services rendered to air transport passengers and is meant to partially cover the costs of staff and equipment regarding civil aviation security for the prevention and suppression of unlawful interference against civil aviation. This charge shall be paid per embarked passenger.

for collecting this component.

Exemptions:

- Children under 2 years of age;
- Passengers in direct transit through the airport;
- Transfer passengers at airports in Santa Maria, Ponta Delgada, Horta and Flores, who have as their final destination the other islands of the Azores Archipelago;
- Passengers in official missions that depart on aircraft of Portuguese State or Foreign State private services, on the basis of reciprocity agreements.

Official Entities (ANAC and Terminal Control)

a) Security charge applied by ANAC

This charge is due to general costs, regarding ANAC and security forces, which concern the prevention and suppression of unlawful interference against civil aviation. The levy of this charge is ANAC's responsibility.

b) Terminal Control

This charge is due to the performance of air traffic control operations of approach and aerodrome, including the use of radio aids for landing or take-off by NAV Portugal, E.P.E.

1.3 Regulatory Framework

Regulatory Framework of Economic Regulation Model

Decree-Law no. 254/2012, of 28 November and the concession contracts entered into between the Portuguese State and ANA and ANAM established the economic regulation model for the Airport Sector, based on setting the limit amounts for revenue per passenger resulting from regulated activities allowed the concessionaire and control and adjustment mechanisms that the Concessionaire should respect and fulfil.

Generically, the economic regulation model is grounded on the following legal and regulatory basis

Decree-Law 254/2012

Regulates in one sole law the general legal framework for ANA, SA's airport public service concession; the licensing regime for private use of assets pertaining to the public domain of the airport, the set of charges applied to national airports; the legal regime of the Security Charge and Assistance to Persons with Reduced Mobility Charge; the principles and rules of economic regulation applicable to National airports.

Annex 12 of the ANA and ANAM Concession Contracts

Classifies the Regulated and Monitored Activities and defines the Revenue Price Cap (RPC) and the Regulated Revenue Price Cap (RRPC) per terminal passenger, as well as the RPC evolution and adjustment mechanisms.

Annex 7 of the ANA and ANAM Concession Contracts ANAM

Defines the service quality regime to be applied to the Lisbon, Porto, Faro and Ponta Delgada Airports.

Regulated Charges

Pursuant to that established in Article 42 (1) of Decree-Law no. 254/2012, only the Traffic Charges are subject to Economic Regulation. However, through (2) of that same Article, it is possible that other charges may be subject to economic regulation in light of the Concession Contract or other title that sets the activities and services specifically subject to economic regulation.

1.4 Incentives

ANA Traffic Growth Incentives Program is aimed at the growth of commercial air traffic at ANA airports by encouraging the passenger traffic growth on existing operations and the opening of new frequencies and new airport routes.

This Program was designed to encourage airlines to develop their services at ANA airports network, to promote traffic growth as well as to make more efficient use of each airport's capacity.

The Incentives Program applicable at Porto, Faro, Azores, Madeira and Beja is published on ANA's site:

<https://www.ana.pt/en/business/airlines/incentive-system>
