

ANAC's deliberation

PRM Service Charges at all ANA Airports and Passenger Service Charges at Lisbon Group airports 2023

After the clarifications presented by ANA regarding Security and PRM charges, ANAC decided, as published on its website (Press release nº 04/2023):

- 1) To issue a favourable opinion on the security charge of € 1,80 per embarked passenger, proposed for 2023, resulting in a decrease of 49% compared the current amount in force.
- 2) To approve the value of €0.69 per embarked passenger for PRM charge. This amount is € 0.05 higher than the value proposed by ANA (€ 0.64). At Lisbon Group Airports, this increase must be offset by an equal decrease in the passenger service charge.

ANAC considers that the approved amount should allow ANA to guarantee the necessary means to provide a PRM service with adequate quality at all ANA airports of the network.

The approved charges (PRM charge of all ANA airport's and passenger service charge of Lisbon Group airports) are enclosed in the table of charges on ANA website and will be in force on 20th June 2023.
