

Regulated Charges adjustment in November and December 2018, at Lisbon and Porto Airports

Taking in consideration the traffic estimation deviations, due to a stronger passenger increase than initially forecasted, ANA is going to apply an adjustment of regulated charges in November and December 2018, of 1,63% and 1,01%, respectively, for Lisbon and Porto airports.

This charge adjustment, under de economic regulation model, will avoid the accumulation of deviations to future charges adjustments.

Until the beginning of August, ANA will launch the consultation process to all Users for the 2019 charges. The present adjustment is specific and limited in time, having no impact in the charges to be proposed for 2019.
